

Dear Watch Member,
BK41 11530

At 7.20pm on Friday 18th February the following described man visited the home of an elderly lady in East Lawns Betley and was allowed inside saying that there had been a water burst at a neighbours house. Once inside he asked the lady to empty a cupboard. During which time he made a search of the upstairs rooms. However it is not known what if anything was taken. He is described as a white male, 34to 45 years of age, stocky build with a round face, 5ft 5in tall wearing Wilkinson gardening gloves, and navy blue clothing. Please warn your neighbours, especially elderly neighbours to be on their guard and advise them not to let anyone into their home unless they are absolutely sure that they are genuine. Any suspicious caller in these circumstances should be reported to the Police immediately using the 999 system.
